

Resources & Redevelopment Forum

If you own a business or commercial property in Lower Providence Township - or are looking at opportunities available here - circle **November 10th** on your calendar. The Township is hosting a "Resources and Redevelopment" forum to introduce local businesses and developers to services available to them through TeamMontCo, an economic development partnership.

TeamMontCo offers assistance in just about every area, including business loans, workforce development, manufacturing improvement, corporate strategy, energy issues and international sales. Much of their expertise is provided at no cost.

Members of TeamMontCo are: Ben Franklin Technology Partners of Southeastern PA (BFTP); Delaware Valley Industrial Resource Center (DVIRC); Montgomery County Community College Center for Workforce Development; Montgomery County Development

Corporation (MCDC); PECO; Small Business Administration (SBA); Temple University/Fox School of Business Small Business Development Center (SBDC); Strategic Early Warning Network (SEWN); Montgomery County Workforce Development (MontcoWorks); and World Trade Center of Greater Philadelphia (WTC).

The forum will be held from 8:00 to 10:30 a.m. at the Township Building. If you'd like to be added to the mailing list for the November 10th forum, please call (610) 635-3519 or email us at: broth@lowerprovidencetownship.org

Board Hires Economic Development Consultant

Attracting new business, creating jobs and supporting the existing business community are top priorities for the Board of Supervisors. With those priorities in mind, the Board has engaged Carmen Italia of MARC Consulting, LLC to work with the Township's Business Development team.

Carmen brings expertise and associations gained from over 40 years of business development experience. For 28 years, he served as president of the Montgomery County Economic Development Corporation, working to create and retain thousands of jobs across the county.

The Business Development Committee is excited to benefit from Carmen's insight and guidance as they work together to bring businesses and jobs to the Township.

Boards and Commissions Volunteer Opportunities

Lower Providence Township will have a vacancies available on its various boards, commissions and committees beginning with the New Year. The Board of Supervisors will be making appointments to the Parks and Recreation Board, Planning Commission, Zoning Hearing Board, Finance Committee, Sewer Authority, Vacancy Board, and Library Board of Trustees.

Each group typically holds one evening meeting per month. Term lengths range from three to five years, depending on the board or

commission. A meeting schedule can be found at the "Board and Commissions" link on the Township website, lowerprovidence.org.

Individuals who are interested in serving their community should send a letter of interest and resume to:

Lower Providence Township,
Attn: Township Manager,
100 Parklane Drive,
Eagleville, PA 19403 or
admin@lowerprovidence.org.

Please indicate which group is of interest to you.

Phoenixville Hospital Welcomes New Physician

Orthopedic Surgeon Michael J. Messina, MD, Joins Valley Forge Orthopaedics

Dr. Messina is a Harvard Fellowship-trained Shoulder/Elbow and Sports Medicine Specialist in Orthopaedic Surgery. He completed his Orthopaedic Surgery residency training at the University of Colorado and received his medical degree from Drexel University College of Medicine. Dr. Messina grew up in Wayne, PA. He is a graduate of Conestoga High School and Penn State University, where he received a BS in pre-medicine from the Schreyer Honors College. Dr. Messina has highly subspecialized fellowship training from Harvard University in comprehensive management of shoulder pathology on a full spectrum from sports related injuries to advanced arthritis requiring reconstructive, joint replacement surgery. Additionally, he has a particular interest in Orthopaedic Sports Medicine of the entire body where he employs advanced, minimally invasive arthroscopic surgical techniques.

Dr. Messina will see patients in Phoenixville, Limerick and Paoli and will perform procedures at Phoenixville Hospital and Paoli Hospital, as well as the Surgery Center of the Main Line and Surgery Center at Limerick. With a practice philosophy of collaborative, personalized, patient-centered care and joint decision-making, Dr. Messina welcomes new patients and accepts most major insurance programs.

Call **610-644-7755** to schedule an appointment with Dr. Messina.

Phoenixville Hospital Among First In Region To Offer New Therapy For Stroke Prevention For Patients With A-Fib

Phoenixville Hospital is proud to be among the first hospitals in the Philadelphia region to offer patients with non-valvular atrial fibrillation (AF) a new stroke prevention therapy alternative to long-term warfarin medication with the newly approved WATCHMAN Left Atrial Appendage Closure Implant.

For patients with AF who are considered suitable for warfarin by their physicians but who have reason to seek a non-drug alternative, the implant is an alternative to reduce their risk of AF-related stroke. The implant closes off an area of the heart called the left atrial appendage to keep harmful blood clots from entering the blood stream and potentially causing a stroke. Over time, patients may be able to stop taking warfarin.

People with atrial fibrillation have a five times greater risk of stroke. Atrial fibrillation can cause blood to pool and form clots in the left atrial appendage and this is believed to be the source of the majority of stroke-causing blood clots.² Blood clots can break loose and travel in the blood stream to the brain, lungs, and other parts of the body.

Electrophysiologist Vadim Levin, MD is one of the region's most experienced physicians in treating patients with atrial fibrillation. Dr. Levin was among the first few physicians in the state of Pennsylvania to perform the left atrial appendage closure implant procedures. "For patients with non-valvular atrial fibrillation who are seeking an alternative to warfarin, this device offers a potentially life-changing stroke risk treatment option which could free them from the challenges of long-term warfarin therapy," says Levin.

Implanting the device is a one-time procedure that usually lasts about an hour. Following the procedure, patients typically need to stay in the hospital for 24 hours. FDA-approved in the United States, the device has been implanted in more than 10,000 patients and is approved in more than 70 countries around the world.

To schedule an appointment with Dr. Levin or to learn more about the Watchman implant, call 610-326-8005, extension 184.

phoenixvillehospital.com

Traffic Safety Unit Charged With Diverse Responsibilities

The police department's Traffic Safety Unit (TSU) is comprised of two officers and a supervising sergeant. They are assigned an unmarked SUV as well as a low profile marked police unit. The unit assumes many diverse responsibilities, including identifying safety concerns using accident data, traffic studies and most importantly responding to residents' concerns.

Most traffic issues are typically enforced by equipment that has been certified by the Commonwealth of Pennsylvania and then calibrated for accuracy in accordance to state law. For example, excessive vehicle speed is typically identified through speed timing

devices such as a Visual Average Speed Computer & Recorder (VASCAR), Accu-Trak or Electronic Non-Radar Device (ENRADD) instrument. In addition, a speed display trailer is often used to provide approaching vehicles with their speed. The unit also has a portable digital message board to heighten motorist awareness of their driving habits, roadway conditions and if applicable, travel speed.

Monitoring the township roadways for problems, missing or damaged street signs and the handling of abandoned vehicles are just a few of the daily responsibilities of the Traffic Safety Unit. In addition, they review new construction plans during the initial application process in order to identify potential issues and concerns prior to development.

The concerns of our residents are something routinely investigated by the Traffic Safety Unit. A complaint may be addressed with the use of the digital speed trailer, signage, or other tools when deemed appropriate. The unit has a portable radar traffic data recorder that is capable of collecting information regarding the number of vehicles, speeds and times of day, which can assist them with their directed patrols.

Occasionally, specific concerns arise, for example the return of a significant volume of traffic on Arcola and Level Roads after the reopening of the Arcola Bridge. While the structure was closed for replacement, the Traffic Safety Unit was involved in the process of restricting commercial vehicle traffic (except local deliveries) on Arcola Road and parts of Level Road. These restrictions ultimately will serve to improve the safety of residents and traffic on those roadways, as well as lessening the negative

impact of heavy vehicles on the roadways themselves by minimizing the maintenance and repair costs borne by the township.

School's Open: Drive With Care

With the conclusion of summer, our kids are heading back to school. Remember to safely share the roads with school buses, pedestrians and bicyclists, and provide children with the necessary knowledge to stay safe at school.

Whether children walk, ride their bicycles or take the bus to school, it is extremely important that they - and the motorists around them - take proper safety precautions.

Tips for Motorists

- All passengers should wear a seat belt and/or an age and size appropriate car safety seat or booster seat.
- Do not text or talk on your cell phone while driving.
- Slow down and obey all traffic laws and speed limits.
- Be alert for school zones that have a reduced speed limit at designated times of the day.
- Watch for school buses. Red flashing lights and an extended stop arm indicate the school bus is stopping to load or unload children. The law requires you to stop.
- Keep an eye out for children walking in the street, especially where there are no sidewalks.
- Be alert for children playing and gathering near bus stops and for those who may dart into the street without looking for traffic.
- When backing out of a driveway or leaving a garage, watch for children walking or biking to school.
- When driving in neighborhoods or school zones, watch for young people who may be in a hurry to get to or away from school and may not be thinking about getting there safely.

PA School Bus Law

All 50 states have a law making it illegal to pass a school bus that is stopped to load or unload children. School buses use yellow flashing lights to alert motorists that they are preparing to stop and red flashing lights with an extended stop sign arm to signal motorists that the bus is no longer moving and children are getting on or off the bus. Every vehicle traveling on an undivided highway regardless of travel direction must stop when students are entering or exiting a school bus. In addition, vehicles following directly behind a school bus must stop at least 10 feet away upon the bus's activation of red flashing lights and the engagement of a stop arm. You should never move your vehicle until the children have reached a place of safety.

Penalty: If you are convicted of violating Pennsylvania's School Bus Stopping Law, you will receive all of the following penalties:

- ✓ 60-Day driver's license suspension
- ✓ Five (5) points on your driving record
- ✓ \$250 fine

Development Projects: Completed, Current & Upcoming

Construction Completed:

Rehab at Shannondell - The new rehabilitation facility is located within Shannondell at Valley Forge. (See story on Page 7)

Shannondell Building 10 - This is a residential unit at Shannondell at Valley Forge.

Taco Bell - The existing building on this former gas station property at Trooper and Audubon roads was demolished and a new restaurant with drive-thru was constructed.

Construction On-Going:

Manors at Brynwood - 12 single-family homes are being constructed to the easterly side of Cross Keys Road, just south of Vincent Drive.

Landis Mill Estates - Eight single-family homes are under construction along a new cul-de-sac coming off of Landis Mill Road.

Mascaro Memorial Ball Fields - The Mascaro Family will construct three ball fields, a playground, and batting cages on a property along Woodland Avenue. The fields will be used primarily by Little League teams in the area with the facility operated by the Township.

Shannondell Building 11 - This is a residential unit at Shannondell at Valley Forge.

Plans that have recently completed final review:

Commercial:

LD-16-01: Mill Grove - Montgomery County and the John J. Audubon Center, 1201 Pawlings Road. This project involves the

construction of a new, approximately 22,000 SF museum and education center. There will also be some enhancements to existing facilities. (Details at <http://johnjames.audubon.org/>)

LD-16-03: Lower Providence Presbyterian Church - This minor subdivision plan will consolidate six lots at 3050 Ridge Pike.

Residential:

S-16-01: Michael and Kathleen Radatti, 3868 Germantown Pike- This is a two-lot subdivision, separating a single-family detached dwelling from two apartment/storage buildings. There is no proposed construction involved.

S-16-03: HTC Builders -3837 Landis Mill Road - This is a two-lot subdivision to allow the future construction of an additional single-family dwelling. The plan site is adjacent to the recently approved Landis Mill Estates project.

S-16-06: Rowe Tract - The proposal requests a two-lot subdivision at 222 Collegeville Road.

Plans currently under review:

Commercial:

LD-16-02: Classic Coachworks, 3949 Ridge Pike - The applicant is proposing to expand their existing business on the site with a 6,560 square foot addition.

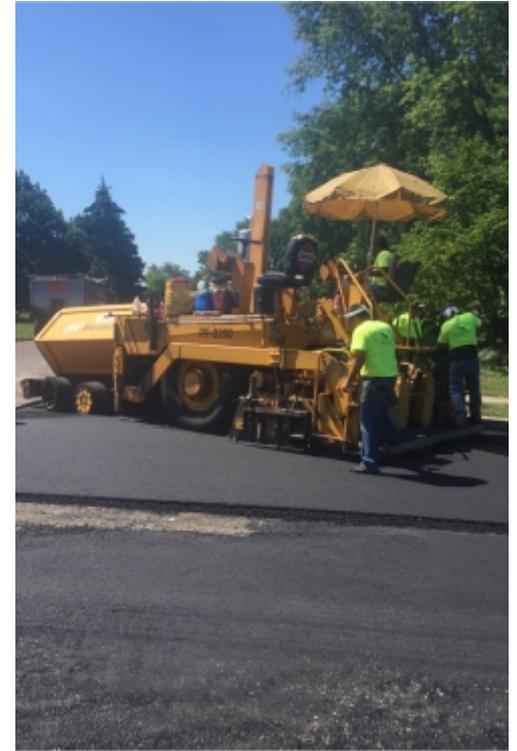

Residential:

S-16-02: Anderko Custom Homes, 37 Crawford Road - This proposal requests an 11-lot subdivision, with nine new single family detached dwellings. The project is to be constructed in two phases. This project adjoins the intersection of Park/Crawford/Eagleville.

S-16-04: WB Homes - Courts at Brynwood - This is a proposal to construct 139 townhomes along Germantown Pike just west of Superior Tube.

ROAD IMPROVEMENTS

The Township's on-going road improvement program continued with the paving of Coldsprings Drive, Jennifer Lane, South Grange Avenue, Woodlyn Avenue (first block), and Fenwick Circle.

New Facility Brings Jobs, Rehab Services to Township

Lower Providence Township is excited to announce the opening of a unique rehabilitation facility that brings hundreds of jobs to the Township and offers community residents the opportunity to recuperate close to home. Rehab at Shannondell, which opened in July, provides the orthopedic and medical rehabilitation services you'd expect from a quality facility in a decidedly unexpected resort-style setting.

The new skilled nursing facility is located within the gated Shannondell community. Patients recovering from surgery, temporary illness or a medical condition are supported by a dedicated staff providing physical, occupational and speech therapy services. Cardiac rehab is provided through an innovative partnership with Cardiology Consultants of Philadelphia (CCP).

Together with The Meadows, an existing personal care building on the campus, Rehab at Shannondell will employ over 325 full-time positions. Both facilities are open to the public, and Rehab at Shannondell will accept most major insurance plans.

The therapists, clinicians and staff of Rehab at Shannondell are focused on making sure patients enjoy their rehab experience while working toward returning to independent living. "Our goal is to have patients recover well and return home stronger," says William Ross, Chief Operating Officer. A comfortable environment, he notes, is critical to a successful recovery. To that end, Rehab at

Shannondell offers a resort-like setting and amenities, including private rooms and baths, table service dining, large living room areas and outdoor courtyards. Each floor has its own therapy center, social and dining areas, and activity room.

Ross reminds those needing rehab after surgery or an illness that they have choices. The distinctive Rehab at Shannondell may be a convenient option for local residents. He suggests discussing the possibility with their physician prior to a medical procedure and the discharge planner at the hospital after. With Rehab at Shannondell now serving therapy and long-term living needs of

patients of all ages, The Meadows will focus solely on providing personal care and expanded memory care services. Two different price points for personal care are now available, said Ross, including a more affordable option with the same level of service.

The new rehab center and the enhanced Meadows building join the Shannondell retirement community itself as exceptional resources for Lower Providence. Benefits for Township residents include not only the comprehensive services available, but also a significant tax contribution and the support of local businesses.

Yard Maintenance & Stormwater

It's That Time of Year...

Leaves, yard waste and lawn clippings are collected every Wednesday year-round. They should be placed out for pickup in open-top containers or compostable paper bags. Plastic bags cannot be accepted. Twigs and small branches should be cut to 3-foot lengths and tied in bundles weighing no more than 50 pounds. J.P. Mascaro & Sons offers a vacuum leaf collection at additional cost on Thursday, Nov. 3 and Tuesday, Dec. 20. Due to safety concerns, some major roadways are excluded. Call 1-800-432-1616 for pricing and details.

As you maintain your lawn this fall, be sure you don't accidentally dump grass clippings and other waste into storm drains. Leaf litter and yard waste dumped into a stormwater basin or near a waterway can cause harmful nutrient accumulation. Leaves swept into the street can enter storm drains and make their way into the nearest creek as well. Excess lawn fertilizer can wash away with the

rain and bare soil can also run off into streams and cause sediment pollution. Grass clippings, and the chemicals on them, wash into storm drains that empty into streams. Their decomposition causes a lack of oxygen for fish and aquatic life.

More information on stormwater management can be found at the Township website, www.lowerprovidencetownship/StormwaterManagement.htm.

Think Twice Before Planting Bamboo

Bamboo may seem like an attractive garden option, but it can pose serious problems. Some bamboo species can be very invasive and extremely difficult to contain. Bamboo's hardiness and rapid growth - sprouts can grow 12 inches in a day - can make it a problematic plant for most yards. Bamboo can spread underground as quickly as it grows and it doesn't respect sidewalks, fences or property lines.

The Pennsylvania Department of Conservation and Natural Resources (DCNR) lists Golden Bamboo on its "Watch List" as a species that has the potential to act aggressively and is not preferred in natural settings. According to a DCNR fact sheet, this "running" type of bamboo will often find its way out of confinement and infest nearby areas.

Should you already have bamboo on your property, please note that it's your responsibility to maintain it, especially if it is growing near sidewalks. Under Township Ordinance, property owners are to keep sidewalks clear of any growth that could interfere with travel.

DCNR encourages gardeners to choose native plants that will help preserve the state's biodiversity and plant heritage. Because Pennsylvania's native plants are meant to grow here, they thrive with less maintenance and serve as pollinators, attract wildlife, and reduce other unwanted species. For a list of native plants, visit <http://www.dcnr.state.pa.us/forestry/plants/nativeplants/>.

Keeping Streets & Sidewalks Safe When It Snows

The Public Works Department is dedicated to the safety of all of our residents. Snow removal is a tedious and time-consuming job and your patience during a snow/ice event is appreciated. Our crews are responsible for almost 90 miles of roads within the Township and they work many hours under very difficult conditions to keep you safe. Top priority during a snowstorm is keeping main roads open.

Here are some important reminders:

- ❄️ It is almost impossible to keep snow from being deposited at driveways during plowing, so it's best to wait to shovel until the Township's finished plowing. If you do clear your driveway before the street is completed, put snow to the right so the plow can push the snow away from your driveway.
- ❄️ Township ordinance requires that a pathway on the sidewalk, at least 30 inches wide, be cleared within 48 hours after it stops snowing and sidewalks should be covered with salt or similar materials in the event of ice or sleet.
- ❄️ Please do not shovel or blow snow from driveways into the street.
- ❄️ Keep your vehicle off the street if you have off-street parking.
- ❄️ Limit travel unless absolutely necessary.

- ❄️ Please clear the snow away from fire hydrants.
- ❄️ State and Montgomery County roads are cleared by their own crews. A list of these roads and contact information for PennDOT and the county can be found below, as well as on the Public Works page of the website, lowerprovidence.org.

PennDOT 1-800-349-7623
Audubon Road
Eagleville Road
Egypt Road
Evansburg Road
Level Road (Between Ridge Pike & Yerkes Rd.)
Park Avenue
Pawlings Road
Ridge Pike
River Road
Trooper Road
Route 422
Yerkes Road
Montgomery County 610-275-2368
Germantown Pike

You need to know! - It is the law in Pennsylvania to make sure vehicles are completely clear of snow and ice. Also, headlights must be turned on if your windshield wipers are in use.

Mailboxes

Any damages that occur are the responsibility of the homeowner, unless the plow truck directly strikes the mailbox. If you believe this is the case, call Public Works, 610-635-3525, after the storm has subsided, within 48 hours, and we will evaluate the damage to determine responsibility.

Hidden Hydrants

Winter storms can often hide fire hydrants under mounds of snow. Firefighters can lose precious time trying to locate and shovel out a hydrant before hooking up a hose. Please consider clearing the area around any hydrants close to your residence or business. A 3-foot path on all sides will make it easier to locate and operate the hydrants in an emergency. Thank you!

When to Call 911

Do you know when to call 911?

Seems like a simple question, but there can be confusion. The National Emergency Number Association defines true emergencies and gives additional tips on 911 use online at www.nena.org/?page=911TipsGuidelines.

The Lower Providence Fire Department has experienced a rising number of calls to Department numbers that are either reporting emergencies or trying to determine whether a situation is an emergency. There seems to be a reluctance to call 911. As explained in the NENA document, if you are unsure if a situation requires emergency services, call 911 and let the 911 call taker decide if your situation requires an emergency response.

Calling LPFD business numbers delays emergency response. The Department's main number is 610-539-5408, which is usually answered by voicemail. As a 100% volunteer department, members are consistently in station only during emergency responses, training nights and maintenance nights. Voicemail is checked frequently, but is not dependable for emergency calls. The social hall number is 610-539-9084 and is usually answered by the Hall Manager, who provides information on hall rentals. All callers who seem to have an emergency situation are instructed to hang up and call 911. The delay in making two calls could be critical in a true emergency.

Open Burning Ordinance: What You Need to Know

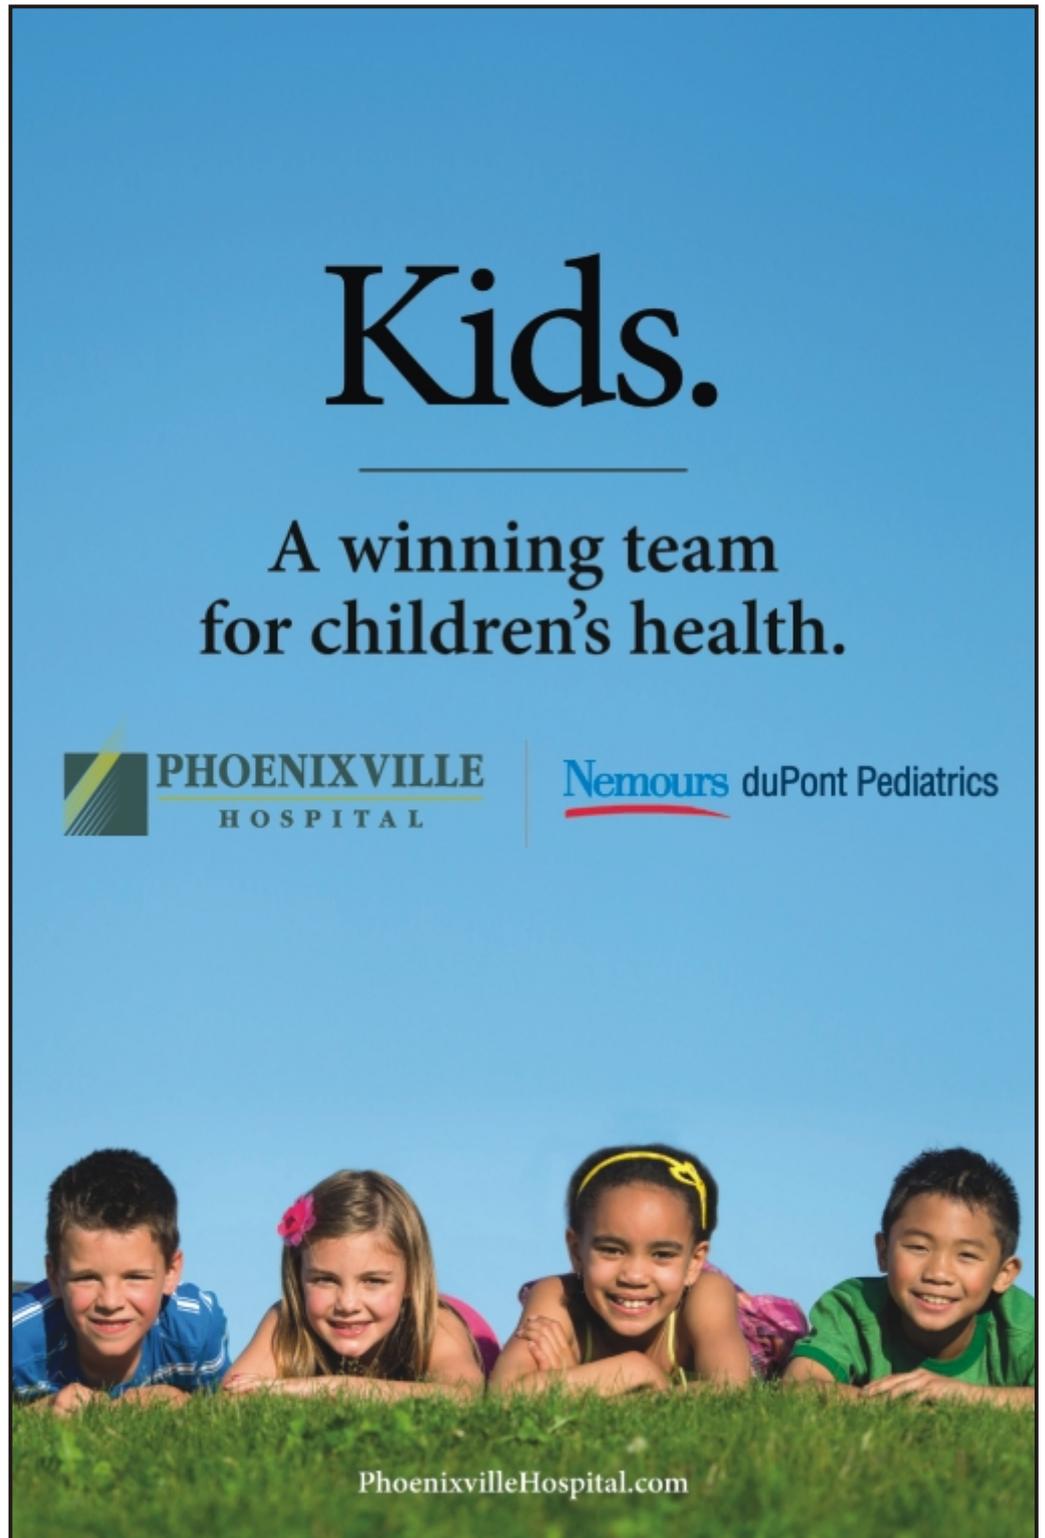

911 dispatches that relate to open burning make up a significant percentage of LPFD responses. Residents who are contemplating open burning should first read the Township's open burning ordinance. The ordinance is found at Chapter 83, Article IV of the Lower Providence Township Code. It is recommended that you read the entire Article, but the most important information is contained in Section 83-19 through Section 83-22, view it online at <http://ecode360.com/14729153>.

Some of the most important points are:

- Burn barrels are not permitted under the ordinance.
- All fires that are on the ground in fire pits or rings require permits from the Township. This includes cooking fires, ceremonial fires and recreational fires.
- The only fires that don't require a permit are fires in manufactured fire pits or fireplaces. Fireplaces constructed onsite

are included provided they are built with a Township permit and approved by the Township. The owner of such a device must follow the manufacturer's instructions for use and fueling. The device must be more than 15 feet from combustible material. However, fires in these devices must not be used to burn trash, garden waste, construction waste or chemicals. In most cases fuel will be limited to dry tree limbs of no more than 2 inches in diameter.

- In all instances of open burning with a permit, a hose or fire extinguisher must be in the immediate area of the fire, and the fire must be under the continuous supervision of an adult.
- Any open burning, including those where permits have been obtained, which presents a hazard or is a public nuisance must be extinguished immediately.

Kids.

Fire Prevention Week - Oct. 9-15, 2016

Lower Providence Volunteer Fire Company is once again partnering with the nonprofit National Fire Protection Association (NFPA) to observe Fire Prevention Week, Oct. 9-15, 2016.

Each year during Fire Prevention week, volunteers from Lower Providence Fire Company visit day cares and schools to spread the work about fire prevention. The week ends with a fun-filled open house, scheduled this year for Friday, Oct. 14 from 7 to 9 pm. at the main station, 3199 Ridge Pike, Eagleville. There will be demonstrations, displays, and education for all ages. It is a great way to see the volunteer firefighters and the equipment that protect Lower Providence Township.

Fire Prevention Week was established to commemorate the Great Chicago Fire, the 1871 tragedy

that killed more than 250 people, left 100,000 homeless, destroyed more than 17,400 structures and burned more than 2,000 acres. The fire began on October 8, but did most of its damage on October 9.

This year's Fire Prevention Week theme, "Don't Wait, Check the Date!" encourages everyone to know how old their smoke alarms are and how often they need to be replaced.

- Smoke alarms should be replaced every 10 years.
- To find out how old a smoke alarm is, look at the date of manufacture on the back of the alarm; the alarm should be replaced 10 years from that date.

A Call for Volunteers

The Fire Department is an all-volunteer organization that has been serving the Lower Providence community since 1945. If you are 14 or older and interested becoming a firefighter, fire police officer, or junior firefighter, the Fire Department would like to meet with you and discuss the opportunities available. Individuals with or without prior fire service experience are needed and all necessary training will be provided. The best way to begin the application process is to stop by the Eagleville station at 3199 Ridge Pike around 7 pm on any Tuesday night. You can also call 610-539-5408 and leave a message.

Library News & Programs

To register for programs or check on more programs coming up, check the library website at www.LowerProvidenceLibrary.org or call the Library at 610-666-6640.

New Look for the Community Library

The Library's space is being used in new ways to provide better service after the completion of renovations in early summer. Visitors can enjoy a snack or beverage in the café while reading the daily newspaper or logging onto our WiFi connection. The study rooms provide space for tutors and pupils, small collaborative groups, and individual quiet study. The reference desk is now an easily identifiable point of service for information and assistance.

Comedy Night

Make your reservations now for the Library's fall fundraising event on Friday, Oct. 28, a comedy show featuring Chip Chantry at Chadwick's Restaurant & Bar. Tickets are \$40 and include hors d'oeuvres, soft drinks, and the show. A cash bar is available. Doors open at 6:30 p.m., show begins promptly at 8:00 p.m.

Volunteer Fair

Make a difference in your community - be a volunteer! Adults and teens looking for volunteer opportunities will meet representatives from area nonprofit organizations to match up interests and skills, Saturday, Nov. 5, 1:00-3:00 p.m.

Caring & Sharing Program Brightens the Holidays

The annual "Caring & Sharing" program needs your help to brighten the Thanksgiving and Christmas holidays for less fortunate families in our community. Food donations, monetary contributions, grocery store gift cards, and Angel Tree gifts are all ways you can be a part of the program. Donations can be dropped off at the Township Administration Building, weekdays, 8 a.m. to 4:30 p.m.

For holiday meal baskets, the following items are requested:

- Canned goods: Corn, green beans, peas, yams, fruit, soups, baked beans
- Pantry items: Instant mashed potatoes, scalloped potatoes, pasta, pasta sauce, rice, macaroni and cheese
- Desserts: Pudding mix, Jell-O mix, cookies, cake mix and icing, brownie mix
- Beverages: Juice, coffee, hot chocolate

The Angel Tree will be located in the lobby of the Administration Building after Thanksgiving. Choose a wish card from the tree, purchase the gift requested and return it unwrapped (or in a gift bag). Please remember to attach the wish card to the gift to make sure it is given to the correct family and family member.

The Township also accepts donations of new or gently worn coats, hats, mittens and gloves during the fall and winter months. For details on the Caring & Sharing Program, please call 610-635-3543. Thank you for your generosity!

News From The Sewer Authority

Disposable Wipes Causing Problems

Did you know that even if wipes are labeled "flushable" or "disposable" they still don't degrade in the system? Flushing them is like flushing a handkerchief or other cloth item. We are seeing more of a problem with wipes being flushed and causing issues with the pumps. Our sewer systems and treatment plants were not

designed to handle wipes. They gum up the system, clog pipes and pumps, and cost taxpayers and residents a lot of money in additional maintenance costs. In addition, many homeowners have experienced plumbing problems because of wipes, so you may have expensive maintenance issues at home if you flush them. If you must use wipes, put them in the trash, not the toilet.

Paperless Billing

Receive your monthly sewer bill by email. If you haven't already signed up with the form that was included in your January 1, 2016 bill, go to <http://www.lowerprovidence.org/sewer.htm> to complete the form. Past due and/or shut off notices will not be emailed. They will be mailed to you in paper form. Emailed bill(s) will come from "sewerbill@lpts.org".

Website Updates

We encourage you to check the website often for updates and call us with any

questions you may have regarding the information that is posted. Click on the Sewer Authority tab on the lower left side of the home page of the Township website, www.lowerprovidence.org.

The Sewer Authority wants our customers to know that our employees are always available during regular business hours by calling 610-539-6161 to address emergency situations. After hours emergencies, please call 1-800-379-5713. If you should have a backup in your outside line, contact us so that we can verify that it is not being caused by a blockage in our main line before you call your plumber.

FOG

No, we're not talking about the weather! FOG stands for the Fats, Oils and Grease from food preparation, packaged food and food scraps. How do you dispose of your FOGs? If you have been putting them down the drain, you need to know that fats, oils and grease stick to the insides of sewer pipes when washed down the kitchen plumbing system. This solidifies and can block pipes. Clogged pipes cause sewer backups and sewage spills on residential property and on the street, which ultimately leads to **costly sewer backups and overflows, increased sewer rates and public health and environmental hazards** as it washes down storm drains and into bays, water ways and creeks.

How should I dispose of my FOG materials?
Glad you asked!

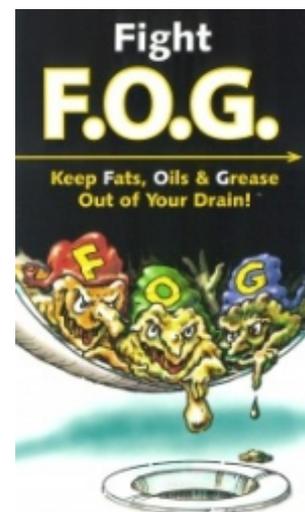

Follow these Dos and Don'ts to keep costs down and improve the environment:

DO! ✓

- ✓ Wipe down greasy pots and pans with a dry paper towel and dispose of it in your kitchen scrap recycling or garbage.
- ✓ Pour cooled oil, fats and grease into a can or other container with a tight lid (coffee can, glass jar or plastic container) and dispose of it in the garbage.
- ✓ Use baskets or strainers in sink drains to catch food scraps and other solids – and dispose of them in the trash.
- ✓ Talk with your friends and neighbors about the grease problem so the community is aware of the risk.

DON'T! ✗

- ✗ Do NOT pour FOG down the garbage disposal or sink drain.
- ✗ Do NOT use hot water to wash the grease down the drain.

Options for Electronics Recycling

Pennsylvania state law requires that televisions and computers be recycled and prohibits their disposal as trash. Best Buy and Staples stores run year-round electronics recycling programs accepting computers and various electronics, but **TVs and monitors are not accepted**. Acceptable items will be taken for recycling at no charge and with no purchase required. Check their websites for details, bestbuy.com and staples.com.

For more information and an A-Z recycling guide, visit MontgomeryCountyRecycles.org

J.P. Mascaro & Sons offers TV pickup for a fee (1-800-432-1616), as do haul-out companies such as 1-800-GOT-JUNK or 1-800-HAUL-OUT. The Montgomery County Recycling Office offers additional options for television disposal:

A.J. Catagnus 1299 W. James Street, Norristown 610-277-2727	\$1 per-pound fee for TVs and monitors
Liberty Thrift 3841 Ridge Pike, Collegeville 610-831-9856	Only newer, cable-ready flat screen TVs, any size No CRT monitors

Parks & Recreation Department

Camp Perkiomy and Perkiomy Trailblazers Campers Enjoyed a Great 2016 Summer!

The Township's Parks and Recreation Department wrapped up another successful summer camp season - the program has been serving Township families for over 20 years.

Camp Perkiomy, held at Eagleville, Audubon and Arrowhead Elementary Schools,

accommodated campers in kindergarten through 5th grade. The *Perkiomy Trailblazers* camp is designed for middle school youths in grades 5 through 8. It was held at three sites this summer, Arrowhead Elementary School, Eagleville Elementary School and the Shoemaker House on the grounds of the Township complex.

Throughout the summer, campers enjoyed

theme days, field trips, guest speakers and a wide variety of special events everything from Carnival Day to Star Wars Day to Christmas in July!

If you'd like more information on the summer camps program, contact the Parks and Recreation Department, 610-635-3543. Look for details on the 2017 camp season on the Township website after the first of the year.

Senior E.R.

**Emergency care for the age you are.
Not the age you act.**

Because seniors have unique healthcare needs, we've designed a Senior-Friendly E.R., the first in Chester and Montgomery counties. This new unit features private rooms with lower, softer beds, brighter lighting, seating for the family and more. Hearing assistive devices and service for specialized diets are available. We also coordinate follow-up care with physicians and senior living facility partners. Our goal is to make the entire E.R. experience more comfortable for seniors and their families.

Choose the E.R. at Phoenixville Hospital.

Visit PhoenixvilleHospital.com to learn how our E.R. has seniors in mind.
