U.S. 422 Nighttime Travel Restrictions Scheduled Next Week for Roadwork in Valley Forge Area

King of Prussia, PA – Eastbound and westbound U.S. 422 motorists will encounter nighttime lane closures between the Route 363 (Trooper Road) and First Avenue interchanges in West Norriton and Upper Merion townships, Montgomery County, on Sunday, April 9, through Thursday, April 13, from 7:00 PM to 6:00 AM, for barrier installation, excavation and line striping, the Pennsylvania Department of Transportation (PennDOT) announced today. In addition to the lane closures, there will be nighttime lane restrictions on the ramp from westbound U.S. 422 to Route 363 (Trooper Road).

PennDOT advises drivers to allow additional time for travel on U.S. 422 near the construction area because backups will occur. The contractor's work schedule is dependent on the weather.

This work is part of the \$97.4 million project to build new, wider bridges to improve travel and carry U.S. 422 motorists over the Schuylkill River, Norfolk Southern Railroad, South Trooper Road and Schuylkill River Trail in West Norriton, Upper Merion and Lower Providence townships. The project includes improving U.S. 422 between the Route 23 (Valley Forge Road) and Route 363 (Trooper Road) interchanges; upgrading Route 23 (Valley Forge Road) at its interchange with U.S. 422; and improving ramps at the Route 363 (Trooper Road), Route 23 (Valley Forge Road) and First Avenue interchanges. Construction began in February 2016 and is scheduled to finish in May 2020.

J.D. Eckman, Inc. of Atglen, Chester County, is the general contractor on the \$97,380,711 contract. The project is financed with 80 percent federal and 20 percent state funds.
